Been looking for a game of this kind for years. It has a bit of a 'clunky' feel to it and things aren't always as straight forward as they could be. All in all a good game but vastly over priced in my opinion.. I'm afraid I can't give this a rave review. The quality of the textures is comparable to an aircraft from IL2 1946 released 10 years ago. Still, the flights can be fun and challenging and at this reduced sale price it is worth adding to the hangar.. Unfortunately Im not going to recommend this game just because of the price. 14.99\$ is a little too much for the quality thats in the game. Alot of effort was put into creating the monsters which most look awesome. The intro to the game is awesome. The Open World Horror Game Is something Ive never seen before which is great. But the bugs killed this game for me. I fell through the map twice. Good Luck Playing on a dual screen because if you try moving the camera angle the mouse cursor ends up on the other screen. Human AIs look dull with really bad voice editing. But This game has so much potential if the creator stays with it. Maybe honestly drop the price though. Heres My gameplay

<https://www.youtube.com/watch?v=uEI53Mijk0E>. It's worms:armageddon but they play golf. This is the only DLC for TS2019 that I would recommend buying. And that is because this route is unique from all other DLCs. If you have always wanted a subway route or a street car line then this is the DLC for you! Besides this DLC I only buy TSW routes. They are more engaging and honestly the performance is better.. Not to be mistaken with the first Unreal, as this one took a turn more into a generic shooter, similar to the other FPS games around the same era and it shows in the game and level design. Still, not too shabby over all and is a decent shooter, if the slow movement isn't an issue and the big change in style over the first one won't put you off. This is not for everyone, but Unreal is Unreal.

[As a side note, some familiarity with the storyline and setting is easy to see compared to a certain other, much more popular game series which appeared a few years later..](#) Hello friends! MY FIRST SUGGESTION is to play this DLC after playing the "Enter the Dominatrix" first as this dlc references something from it and it will make it more understandable. This DLC is a parody about saving christmas with everything that it does not stand for, like shooting elves, killing reindeers, and many silly other things in the game. Since i don't wish to ruin the DLC or what it is about, it has achievements in it too. Anyways, have fun playing it.

[Recommended because the saints saved christmas! This was the last storyline type DLC that was released for Saints row 4.. mileena costume makes it worth it. This game is super simple fun. Randomized levels keep the game fresh and you have to stay on your toes. I recommend if you like infinite style runner games. 8/10](#)

I could not get out of the game i even tried Ctrl alt delete and the only way i could get out was to turn off my computer [Wow this game still sucks.]. Trash that shouldn't be on steam.

An unfunny collection of potentially stolen intellectual property in a "game" less interactive than a PowerPoint slideshow.. well played!. Flame Over:

~~~~~

Your name is Blaze, you are a solitary fireman who is armed with a hose, axe, water bombs and foam. Your objective is to put out a raging fire that spread from an office to a factory (Levels) as soon as possible and make your way to the exit in time.

In each level, you will be able to save people and escort them to safety. Each soul saved will be rewarded by 1 additional minute. Save cats, your favourite pets, and you will be getting additional health each time you do so and let me tell you, Blaze needs as much health as he can get! Do not forget to search rooms as you can find some valuable items, like the watch which give you a bit more time and others.

With each level you beat, the difficulty increases. Remember that whatever time is left when you finish a level, it will carry to the next one and that will be the time your will have to clear the new level.

You will earn money by putting out flames. Sometime one of a trapped person will refuse to follow you to safety because they have left something behind. Recover the items for them and be rewarded with a token. REMEMBER, PEOPLE YOU SAVE EQUALS ADDITIONAL TIME! Upgrade your perks if you accumulate enough money and tokens.

In terms of game play, it is absolutely marvellous either with the gamepad or mouse and keyboard. The graphics are great and the soundtrack is SUPERB! This game is extraordinarily addictive but with a soundtrack like this, it becomes insanely addictive! \$11.99 well spend!

Positives:

~~~~~

- tGreat graphics
- tControls are easy to master
- tAddictive and fun to play
- tChallenging
- tAchievements
- tTrading cards

Negatives:

~~~~~

- tCan be a tad too challenging at times

Just get it! It is a brilliant game!

9/10

[FOLLOW THE CPT FROGGY CURATOR PAGE HERE. Made me laugh at times, a little short but still something to play between games, would love to see the game expanded with more scenerios. I personally dont see the point in games like Banished and am more fond of this game. I like games with campaigns, a mission, not just here you go , now survive for an intertnity. It seems like games nowadays are going in that trend, build massive cities, no goals, no storylines.](#)

[However this game does not provide many campaigns, as it ended at like 8, which is very disappointing. If I could make a game, I would put campaigns in a game like Banished.. Trendy breaks tradition with this most recent content pack \(skin and map, not character\), in that they are charging for it from Day 1, much to the chagrin of the community, myself included. I begrudgingly bought it, forgetting about two things: first, the skin is NOT automatically granted](#)

---

with purchase, it needs to be unlocked by completing the Cliffs level on Medium or greater; second, because of the unlockable nature of the skin, as with past skin/map content packs, you do not need to purchase to partake. Just join a Cliffs game and voila, the Bounty Hunter EV skin is yours. And complete Wave 14 of Survival to garner the new awesome Djinnlet pet.

Now, from the first picture above, you may think that this new skin makes the EV one badass DUDE, but think again. Trendy is in fact paying homage to one of the greatest video game characters (& bounty hunters) of all time, Samus Aran of the Metroid series. The way the char stands and the permanent "braid" on the back are further proof.. The sound in this game is simply awful. It looks and feels like a nineties arcade game, and the controls are unpleasant.
